

***From Personal Stories to Policy:  
Improving the lives of care recipients and their  
helpers - Family Caregivers and those Paid for  
Service***

For the public and professionals alike, this Town Hall hopes to identify practical solutions or ideas. We hope to hear about concerns, fears and solutions - from home care workers; care recipients; and family caregivers. Our focus will be on: Alleviating the dearth of support, training, and education for caregivers (family and those paid); the human cost of escalating financial costs; how to address diversity and cultural competency; and maximizing autonomy and personal freedom for recipients.

***Sponsored by Gray Panthers NYC Network***

When: Wednesday, April 27, 2016 1:30-4:00 PM
